Subject:	Support for Incorporated Approved Person Compensation Option (Bulletin 26-0150)

I am writing to formally express my strong support for the proposed rule amendments regarding the adoption of an Incorporated Approved Person compensation option, as outlined in Bulletin 26-0150.

Allowing client-facing advisors to incorporate and be compensated through an advisor-owned corporation is a highly positive and necessary step. It levels the playing field across the industry, providing advisors with the same flexibility and tax certainty enjoyed by other professionals. Furthermore, by harmonizing the rules between mutual fund and investment dealers, this proposal will reduce unnecessary regulatory friction and inconsistencies.

I also fully support the framework's commitment to maintaining strict investor protections while simultaneously making the financial advisory profession more financially viable. This careful balance will ultimately promote greater investor access to regulated, high-quality advice across Canada.

Thank you for your efforts in advancing this modernized compensation model and for considering my supportive comments.
